

## Drivers Abstract

**Note:** All Drivers Abstract results include verification of name, date of birth, gender, status of license and any convictions, suspensions, and prohibitions. BackCheck does not include accidents, correspondence, plate history, or vehicle history to ensure consistency of results, as not all provinces offer the above information.

Turnaround time is listed at its maximum potential. Many provinces often provide results within 24 hours.

### Alberta

**Note:** Due to government privacy legislation, Driver Abstract information cannot be provided to a third-party in Alberta.
